JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact [support@jstor.org](mailto:support@jstor.org).

*Reports from Matanzas—Inspection and fumigation of vessels—Yellow fever.*

Acting Assistant Surgeon Nuñez reports, October 22 and 28 and November 2: Week ended October 19. No transactions. Week ended October 26. Bills of health issued to 6 vessels leaving for ports in the United States, of which 2 were fumigated when about to leave this port. These were the Norwegian steamships *Ole Bull* and *Gotthard*, the former with 20 in the crew, no passengers, bound for Mobile, and the latter having a crew of 20 and 5 passengers in transit, taken on in Habana, destined for Galveston. There was no sickness on board either vessel up to the time of its inspection.

Since October 18, when one case of yellow fever was reported at Alacranes, no cases have been reported within this province.

November 2: Yellow fever case, originating in this city, died this morning at the Civil Hospital.

Yellow fever reported October 28 at Alacranes died yesterday.

*Report from Santiago—Inspection and fumigation of vessels.*

Acting Assistant Surgeon Wilson reports, October 22: Week ended October 19. Bills of health issued to 4 vessels bound for the United States and its dependencies. The Cuban steamship, *Maria Herrera*, bound for San Juan, P. R., via Santo Domingo, was fumigated to kill mosquitoes. No quarantinable disease has been reported.

ECUADOR.

*Report from Guayaquil—Summary for month of September, 1907—Inspection and fumigation of vessels—Smallpox and yellow fever.*

Passed Assistant Surgeon Lloyd reports, October 12: There were 2 deaths from yellow fever in Guayaquil during the month of September, and 4 from smallpox.

Nine vessels were fumigated during the month, and 6 persons were vaccinated. The smallpox situation in the interior is somewhat improved.

GUATEMALA.

*Report from Puerto Barrios—Inspection of vessels.*

Acting Assistant Surgeon Wailes reports as follows:

Week ended October 23. Present officially estimated population, 8,500. General sanitary condition of this port and the surrounding country during the week, good. No quarantinable disease.

Bill of health issued to the following-named vessel:

Date.	Vessel.	Destination.	Number of crew.	Number of passengers from this port.	Number of passengers in transit.	Pieces of baggage disinfected.
